SEA KAYAKING

HIDDEN COVES OF THE « BEAUTY ISLAND"

From Ajaccio to the North of Bonifacio, you will follow the west coast, sailing towards the South of Corsica. This is an authentic paradise for kayakers, where you will discover a pink-tainted chain of rocks and white-sand coves. There you will have the opportunity to swim and explore the seabed surrounded by breathtaking landscapes.

THE MEALS

Hot meals prepared together for dinner and Picnic for lunch.

BIVOUAC

Sleeping out in the open if the weather allows it.

Attention: there are no shower and no WC on the way, please get a sea water soap which can be found at a ship chandler. Please take a sleeping-bag and a camping mattress. We can provide tents if needed.

ITINERARY

Sunday

Meeting at 2.30 pm at the Ajaccio train station, then transfer to the Gulf of Ajaccio south peak. Learning of sailing bases around the rocks of the Castagna peninsula. Then, dinner and night on the beach of Portigliolo.

Monday

Departure early in the morning to go to the Valinco bay. We will discover a first Genovese tower and will reach a little "cala" of sand, in the heart of the rocky cathedral of Capo di Muro. After a short swim in the turquoise sea, we will carry on our way between rocks and little coves of sweet sand until the end the day, taken away by a calm stream, and we will spend the night on the famous beach of Cala d'Orzu.

Tuesday

We will alternate dark basalt rocky capes and turquoise sea lined with white sand. A lot of contrasts for a unique sailing! After lunch in the shade of the pines in the Cupabia bay, we will sail towards the lovely fishing village of Porto Pollo where we will spend the night on one of its beautiful beaches.

Wednesday

We will sail further South and discover a coast increasingly wild. On that day we will cross the Gulf of Valinco, during an amazing sailing between rocks and tafonis. We will take a break on the Campomoro beach and visit its Genovese tower. Before reaching the beach, we will pass through the marvellous granite blocks. Bivouac near Cala d'Agulia.

Thursday

On that day day we will head towards Bonifacio. Obviously, we will have a break on the famous Cala di Conca beach to take some photos, like the ones we can see on postcards. Then, the landscapes will radically change while approaching the Capu di Senetosa: beautiful particular erosion scenes and figures await us. Sailing towards Tizzano, lost haven between rocks, and its small fort. Then, we will stop on the beautiful Herbaju beach. Bivouac on one of the coves, famous for its crystalline waters.

Friday

In the morning, we will discover an amazing series of rocks, and among them one which looks like a lying lion, the famous lion of Roccapina, as well as its wonderful bay. Then we will sail towards the Olmeto Tower and the Fornello cove for the last night on the beach under the stars.

Saturday

After a last sailing, we will reach the minibus that will take us to Ajaccio in the afternoon.

➢ *Depending on the weather conditions or several circumstances (technical level, security problems…), the schedule can be modified by our staff.*

Information about your stay

We will sail the kayaks between 3 to 5 hours per day, and may stroll to enjoy the cultural and natural resources of the different sites we will go through (Genovese towers, seaside footpaths, meeting with the locals…).

We have simple and double kayaks in which all your things will be taken to sail in complete autonomy; we provide waterproof bags.

However, you have to bring your own waterproof bag for your camera and plastic bags (we provide you waterproof bag but it can be torn. Plastic bags can be an extra-protection).

Even if the watertight compartments of the kayak are large, please take only the bare necessities. The bulky things (clothes, sleeping bag, tent and camping mattress) will be at both ends of the boat and heavy and dense things (canned food, water) against the bulkhead of the cockpit. This way the heavy things will be closer to the centre of gravity of the kayaks.
